#### THE TRUTH IS WE CAN ALL DO BETTER BEHIND THE WHEEL

In 2020, the number of Utah miles traveled last year dropped significantly, so you'd think there would be fewer fatalities, well...that's not the case, in fact quite the opposite. Utah's traffic fatalities reached a 14-year high and 276 people did not return home last year. Why?

In a survey conducted November 2020 by Zero Fatalities, respondents said they are good drivers and concerned about traffic safety, however, they perceive that other drivers do not value safe driving [behaviors](#) like they do. And yet, [they](#) also admitted to engaging in many dangerous driving behaviors on a regular basis.

If you really look at your behavior behind the wheel and are honest with yourself, are you part of the problem? Do you act on those little lies or excuses that you know are wrong when driving? Even if it puts you, your loved ones, and others on the road in danger?

We need YOU to be part of the solution. It's time to put the phone down and —drive Alert, drive Focused, drive Calm, drive Sober and always Buckle up.

## UTAH'S DRIVER POINT SYSTEM

# 70 POINTS

and you are out!

Note: Points may vary plus or minus 10 percent depending upon severity of the record.

Reckless Driving	80
Speeding (Depending on Severity)	35 to 75
Failure to Yield Right-of-Way	60
Following too Closely (Tailgating)	60
Wrong Side of Road	60
Wrong Way on One-Way Street	60
Red Light	50
Stop Sign	50
Improper Lookout	50
Negligent Passing	50
Negligent Collision	50
Other Moving Violations	40
