Principal McKeehan made a data presentation on the Utah Aspire testing results. Among other things, it was noted that 2 years ago 65% of students at HHS were tested. Last year 90% of HHS students were tested, which is a big improvement. Based on the overall data, HHS trails only Crimson Cliffs and Desert Hills in percent proficiency. The school's Median Growth percentage (MGP) is currently at 65%. The Council reviewed HHS student performance trends vs the WCSD as a whole and individual schools. Links to the data are provided in the agenda that is posted on the school website for future reference.

Based on the data it appears that academic performance amongst English Learner (EL) students is the lowest in the school and should be a focus for State Trust Land expenditures to raise performance.

The meeting schedule for the rest of the year was planned as follows:

Monday, March 3, 2025 at 3:00 pm

Monday, March 31, 2025 at 3:00 pm
