### Driver Education Law and Policy

Begins October 7, 2024

MIDAS #31794 [Click to Register](#)

### Teen Driver Safety Week October 20-26

A teen's inexperience behind the wheel makes them more susceptible to crashes, so including teen safety messaging in your traffic safety communication plan is important. Many resources come in two versions, one speaking to the teen driver and the other speaking to their parents. Also, many assets are available in English and Spanish.

**Key Message for Teen Driver Safety: Drive focused, drive sober, always wear your Seat belt, drive calm, Limiting extra passengers and distractions.**

### Announcements

#### Online USBE Course: Make sure your rail safety link is correct. (Check all your links)

Dear Instructors: Make sure you have the correct Railroad Safety assignment that directs students to the Street Smarts page. Below is the text you need to copy into the online railroad safety assignment in module "0"

Sharing the road with trains can be tricky and doing it safely might be the difference between life and death! It is essential that the drivers know what trains can and can't do. They can't react, slow, or stop quickly and they cannot swerve. They are huge which gives the optical illusion that they are slow moving, but they are not always. If drivers do something that is unsafe or dangerous around trains, the consequences can be severe!

The link below will take you to a course on train safety. Access the course using the same log in you used to complete assignment 0.5 Street Smarts. If you have trouble, please call OnQ Safety at: 801-506-1340

[Click to Link to Rail Safety Course](#)

Click on Rail Safety Course. Remember to use your LEGAL NAME no nicknames or short names.

1. When you are finished, you will need to take a screen shot of the certificate (MUST be the certificate) and, Submit a photo of that certificate to this assignment. Remember to please not submit an HEIC file as we cannot open
