ROBOTICS REPRESENTS HHS

Members of the Hurricane High School Robotics Club recently met with the Hurricane City Council to advocate for the future of STEM (science, technology, engineering, and math) in their community. Led by club captain Jayden Madsen and member Kaylani Ober, the students presented two primary requests: the establishment of a STEM committee and increased funding for their program.

Have you ever considered...

Our nation will celebrate the 250th birthday of the United States of America on July 4, 2026. Describe how the characteristics of a good citizen help to renew and strengthen the democracy achieved by the Patriots of the American Revolution.

Well, Brindi Lovell did!

And she won a \$125 scholarship from the Daughters of the American Revolution. Way to go Brindi! Click her photo to read her submission.

Kinsley Yardley was recently awarded a scholarship and an award to represent Hurricane High in Pennsylvania at Valley Forge with the Founding Forward Foundation Utah Chapter. She and many other students throughout Utah and the country flew to Philadelphia and spent time at the historic Valley Forge and learned about our great President George Washington and the Founding Fathers of this nation. They will also spend time in Philadelphia touring Liberty Hall and the other historical sites where the Declaration of Independence was signed. Additionally, on February 9th at the Little America Hotel in Salt Lake an award luncheon was held which she attended.

Using their brains to learn about them.

Mrs. Long's Psych 2 class enjoying drawing giant Neurons during the Brain Unit!

Check out the lockers on the 1st floor to learn about Neurons!!

We had many teachers awarded nearly \$20,000 in grants from the WUSD foundation. Each year the foundation awards grants for amazing teachers so they can enhance student learning. Thanks incredible HHS teachers!
